

THE WELL-DESIGNED KITCHEN AND BATH

# DECORATOR'S PLUMBING

For the team at Miami-based Decorator's Plumbing, it's all about staying current. One could say the same of any kitchen or bathroom design, in which homeowners often want a look that possesses an on-trend feel, now and later. And with a selection that enables high performance and ease of maintenance, aesthetic longevity and cohesion, Decorator's Plumbing has become known as a one-stop shop with the recipe for an ideal kitchen or bathroom space. "Our client comes to us because they are looking for an offering that stands above the rest in regard to quality and design," says Michael Guanche Jr., the company's principal. "We are always looking to improve and enhance the shopping experience, and we work as hard as the designer does to make sure that each project delivers the process and result the client desired. We sit and listen to our customer's needs, likes and dislikes, and when we see them smile, we know we've found the perfect solution." From specialty sinks and filtration systems to tubs, saunas and gorgeous fixtures, Decorator's Plumbing has a lineup to please every eye.

## A WALK THROUGH THE SHOWROOM

"If you were to enter Decorator's Plumbing today, you'd find a few *ahead-of-the-curve* trends and technologies," Guanche says. "We're beginning to incorporate new finishes, and we now carry an unbelievable array of wallcoverings. It's a treat to see them all on display in one place. Another major trend at the moment is the use of natural finishes on vanities, which you'll notice in many of our newer products. Lastly, brushed-gold and brass fixtures abound."

“Bring your wish list to life. Nothing is more satisfying than that.”
